Note: Any changes that a parent wishes to make concerning the pick up or delivery of their child must be called in to the bus barn the night before (712-778-2166). This is necessary, due to the fact that no one monitors the phone at the bus barn in the mornings before routes depart.

Can You Help ?

With the white stuff - SNOW - sure to happen we are asking for your help. If a school bus turns around in your driveway the bus drivers would *really* appreciate if this area could be plowed after a snow. This would make the turn around much safer for the drivers and of course the all important passengers your child(ren).

Thank you for your help!
